

# ADAM LEIS

Software Engineer

## ★ EXPERIENCE

### FRONT-END DEVELOPER *Intellectual Technology, Inc. (REMOTE)*

08/2020 - Present

Lead front-end developer responsible for advancing & updating products, establishing standards (code style, project templates, organization) & working with UI designers to build in-house UI component library. CI pipeline config. Vite + Vue.js project setup (both new & existing). React Native app.

### SOFTWARE ENGINEER *Rosenboom Machine & Tool*

11/2014 - 08/2020

Focused on updating front-end & unifying ~15 application UIs (jQuery → Vue.js). Webpack config in complex project structure. Eventually became full stack using PHP CodeIgniter and Phalcon, [My]SQL, Node.js on back-end; websockets,

### WEB DEVELOPER *LawyerFind Network, AR Marketing, Smart Sites Imaging*

06/2010 - 11/2014

Several small, local companies offering commercial websites to local businesses. WordPress (sometimes Drupal); often working directly with clients & gathering their wants/needs.

## EDUCATION

DECEMBER 2021

### LIBERTY UNIVERSITY

*Master of Arts (Christian Apologetics)*

Philosophy, history, science; present arguments and defensible positions for various subjects pertaining to the Christian faith and related worldviews & subjects. Learned greater critical thinking & open dialog skills.

MAY 2010

### BOWLING GREEN STATE UNIVERSITY

*Bachelor of Fine Arts (Digital Arts)*

Digital imaging, animation, interactive (web), as well as the classical (drawing, painting, glass, etc.) provided a basis for the interactive and UI work I do now. How does the viewer/user experience the work, and what are my intentions?
